Re: Invitation to Sponsor/Support the 22nd Topical Meeting on the Technology of Fusion Energy (TOFE 2016)

Dear XX,

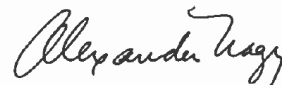

The American Nuclear Society is once again hosting the 22nd Topical Meeting on Technology on Fusion Engineering (TOFE 2016) to be held at the Sheraton Philadelphia Society Hill on August 22-25, 2016. Over 180 abstracts, and 25 sessions are planned with ~300 researchers, scientists, students and proponents of the advancement of fusion energy are expected to participate and attend this year's event.. The event, which is held every 2 years, is aimed at providing a forum to highlight the latest engineering and scientific advances in both inertial and magnetic confinement fusion, and to attract attendees from major fusion energy research centers worldwide to present and discuss their latest concepts/designs and test results.

We are writing this letter to offer your company an opportunity to participate in this event either by way of sponsorship or advertisement in our event's program. We have included information about the sponsorship and advertising packages highlighting the benefits you will get out of your participation.

If you have any further questions, please call us at 858-455-4198. Or, you can fill out the Sponsorship/Advertising Agreement and return it by fax 858-455-4190 to me or email to nagy@fusion.gat.com. Your tax deductible contribution towards this event will be greatly appreciated. It certainly will go a long way in promoting the advancement of ongoing research and studies towards the development of fusion energy.

Thank you in advance for your kind consideration

Very truly yours,

Alexander Nagy
